

SIEM Made Easy for MSPs

Security shouldn't keep you up at night. Blumira's SIEM platform was built by former MSPs to solve for top pain points: deployment complexity, alert fatigue, and scaling challenges.

Why Blumira's SIEM?

Easy Setup, Less Configuration, and Complete Cloud Integrations

Compliance (CMMC, SOC 2, PCI DSS, HIPAA, Cyber Insurance, CIS, & More)

24/7 SecOps Support for Critical Issues

MSP Partner Program & Portal

Blumira Highlights

Under 1 Hour
to onboard clients.

15 min a day
on average to manage Blumira and respond to threats.

99% Less Noise
Reduce alert noise without missing actionable findings.

Unlimited Data
Store & access logs for up to a year on a fixed per-user pricing model—protecting your compliance.

MSP Testimonial

"As an MSP, finding a comprehensive SIEM that works with the tools and services we offer has made Blumira a service that should not be overlooked. The data is easily accessible, accurate, and the noise is reduced to what really matters, actionable threats."

Keith N. | Kean Computing

From MSP Toolkit:

"For years I've said you can't be an MSP without an RMM. Today, I believe just as strongly that you can't be a world-class, security-focused MSP without a SIEM-based offering."

Len DiCostanzo
CEO - MSP Toolkit
